

# Representing the Construction Products Sector

# Representing the Construction Products Sector

The Construction Products Association represents and champions manufacturers and suppliers of construction products and materials.

Our industry directly provides jobs for 389,100 people across 25,728 companies and has an annual turnover of over £68 billion. We provide our members with unique expertise including the latest economic forecasts, a voice in government legislation, representation in driving key policies throughout the wider industry, and so much more.

**We provide our members with unique expertise and support, including:**

- tracking and advising on government policies and regulations
- engaging policy makers to develop effective, evidence-based policies and solutions
- driving consensus with members and the wider construction industry on major issues
- representing our members across industry-wide organisations and events
- producing authoritative economic, technical and sustainability publications and commentary

---

## Our Strategic Objectives for 2026:

### Market Growth

- Provide our members with economic insights and forecasting of market performance
- Ensure manufacturers' perspectives and role are recognised in enabling growth and the delivery of high quality, safer homes, buildings and infrastructure
- Help Government optimise policies impacting UK construction, particularly support for investment in infrastructure, housing and energy-efficiency retrofitting

### Technical and Regulatory

- Liaise with Regulators and Government for effective responses and legislation around building safety, certification and testing
- Drive the reform of industry culture and practices, including new competency standards and support for the Code for Construction Product Information
- Monitor the harmonisation of EU/UK regulations including UK-CPR, and flag risks and cost/benefits
- Develop new ways for product information to be more accurate, transparent and accessible

### Net Zero + Sustainability

- Support the move towards a more resource efficient, sustainable built environment
- Advise government and manufacturers on solutions for achieving net zero and wider sustainability objectives
- Support development and better understanding of measurement and reporting requirements – at product, company and project level
- Ensure 'green' procurement demands on manufacturers are based on appropriate standards, measurement and reporting

# The Benefits of Being a CPA Associate

## Overview

Associate membership is open to companies and organisations that do not manufacture or supply construction products but nonetheless wish to work closely with the CPA or our members on issues impacting our industry or businesses. Associates of the CPA are non-voting members. [A list of our current Associates](#) is available online.

The CPA is not obliged to accept an application to join as an Associate.

## Key Benefits

Key benefits are summarised below. To learn more, please contact us [here](#) or at 0207-323-3770.

## Information & Research

- Access to CPA economic forecasts, industry surveys, market information, Weekly Notes newsletter and other reports. Access is limited to the Associate Member organisation only; i.e., such information cannot be further disseminated;
- Access to most members-only content on the CPA website. Access is limited to the Associate Member organisation only; i.e., such information cannot be further disseminated;
- Measured access to the expertise of CPA staff for help on economic, technical, regulatory, sustainability and policy matters.

## Representation

- Invitations to CPA committees and working groups, to help develop policy positions and promote industry viewpoints;
- Representation of the Associate's interests to UK, regional and EU governments, civil servants, industry committees, boards and alliances;
- Invitations to the CPA's annual Parliamentary Reception.

## Networking and Business Opportunities

- Invitations to support or attend major CPA events such as the annual Lunches, conferences and networking events;
- Access to exporting opportunities and meetings with the Department for International Trade, foreign governments and clients;
- Preferential sponsorship opportunities and rates for CPA and industry events.

# Our Members

The CPA welcomes the support of the following businesses and organisations in its membership:

## Companies
